D1 - Compliance Security, Data Loss Protection, Document Services

C1 - Email Continuity with 58 day retention

A1 - Email Archiving with 99 year retention

M2 - URLP, IP and AP D1 Compliance Security

M2A - S1 Targeted Threat Security (URLP, IP and AP), D1 Compliance Security, C1 Email Continuity,

## Why choose SEACOM?

Mimecast, SaaS model based solution offering Security, Archiving and Continuity is made available through two physically separate Data Centres. In the event of infrastructure outage, emails will continue to flow to an alternative Data Centre. This event is completely seamless and ensures 100% email continuity.

Mimecast is an integrated cloud archiving platform, highly scalable and resilient, combining automated tools for administrators to manage mailboxes, e-discovery and litigation support, and powerful applications for employees to access data quickly.

It provides uninterrupted access to live and historic email and attachments from the Cloud using everyday tools like Outlook for Windows, the web and mobile applications.
